THE COSO INTERNAL CONTROL CERTIFICATE PROGRAM

The Gold Standard of Internal Control Just Got Better

The COSO Internal Control Certificate Program offers you a unique opportunity to develop your expertise in designing, implementing and monitoring a system of internal control. Earn your COSO Certificate through a combination of self-paced learning and a hands-on workshop, followed by an online examination.

The program guides you through COSO's 2013 Internal Control - Integrated Framework (the Framework) from start to finish and, through the use of real-world scenarios, enables you to:

- Recall key points related to the principles-based approach
- Recognize ways to identify, analyze and respond to risks in your business
- Develop confidence in your system of internal control
- Learn from experts
- This program allows you to apply the Framework and context of your own organization directly to your assignments, giving you unique learning experience you can apply directly to your organization.

Target: professionals with 2 – 6 years of experience in internal audit, accounting, or other financial professionals.
